Dear Deloitte Hiring Team,

I am interested in the Treasury M&A and Transformation Senior Consultant opportunity. My background combines Big Four consulting, treasury operations, financial analysis, internal controls, SOX 404, and business process transformation.

At Volt Information Sciences, I reviewed treasury functions including wire transfers, cash management, reconciliations, and transaction processing. Through Business Process Advisory and engagements with KPMG, Ernst & Young, AIG, and other organisations, I have also supported process improvement, risk management, systems analysis, and client-facing consulting initiatives.

I would welcome the opportunity to bring this combination of treasury, transformation, and consulting experience to Deloitte's Finance Transformation practice.

Best regards,

James Lavala, CPA
